LG V30 hands-on: 6-inch OLED display and glass camera lens

2021/06/04

So far, the camera is excellent. Images are sharp and clear, with bright, vivid colors. It shows good levels of contrast without being oversaturated. I was particularly impressed with how the camera handled low-light images, as pictures came out clear without an overwhelming amount of digital artifacts. I'll test the camera more when we get the final review unit and compare it to other phones in the coming days, so stay tuned for more details.
